Introduction

We are a membership organisation for Scotland's digital technology industry. We underpin a thriving community which brings together the ambition, talent and expertise across our industry to grow Scotland's digital economy.

We work with members and partners to support the wider digital transformation of business and society. We believe that digital technologies are critical to Scotland's economic success.

Our membership includes technology businesses across a wide range of sectors covering telecoms, software, IT services, infrastructure specialists and digital media companies, in addition to universities, the public sector, financial services, energy industries and specialist providers.

We offer a range of benefits to our members including connections up, down and across the industry, increasing your profile, sharing relevant market intelligence and acting as a single voice to policy makers.

By becoming a member you'll be entitled to many exclusive benefits and discounts. You'll raise your company profile and make influential connections to support your business growth. You are also supporting the industry as a whole to continue to develop Scotland's digital economic success.

Why join ScotlandIS?

Raise your profile

We will enable you to be heard in every corner of our industry, gain exposure to key audiences, highlight your capabilities to our expansive network of members and cluster tech companies in Scotland and beyond. There are speaker opportunities at our events, roundtables and information sessions, to share your expertise and make connections. There are sponsorship opportunities for our annual events at a discounted rate, including the Digital Technology Awards, the Young Software Engineering Awards, and Scotland's leading tech conference, ScotSoft. We will share your news, upcoming events, case studies and blog articles via our website, social platforms and fortnightly bulletin.

Expand your network

ScotlandIS provides an Introduction Service to connections within our network of over 1000 Scottish technology companies. Access valuable ecosystems through our Cyber and Data clusters, either to work together or to identify potential suppliers to take your business to new heights. Come along to our events for free or at a discounted rate, for the opportunity to network and explore areas for collaboration within our community.

Strengthen your business

Access all new relevant funding calls and procurement opportunities that we highlight to our membership. Use our e-Placement programme to gain early access to the talent pool within Scotland's universities, adding value to a key area of your business. Receive business support such as HR and legal advice to help you on your journey as you grow.

Be part of the conversation

With access to key decision makers, we are best placed to keep you apprised of the latest industry trends, insights and research. Take the opportunity to speak at our roundtables and share your knowledge with the membership. Groups such as our Software Engineering Leaders Forum and Marketing Meetups provide a platform for exploring challenges with peers and the potential to work together. There is also the opportunity to join our steering groups such as Policy, Cross-Sector, and Diversity & Inclusion, in order to stay informed and help shape the future of Scotland's tech sector.

Business member package

Member introduction service

Browse through our member directory and identify member organisations you would like an introduction to and we will do a personal introduction for you.
